

JASMINE KAUR HANJRA

New York, NY | jh10489@nyu.edu | (908) 405-1926 | [linkedin.com/in/jasminehanjra](https://www.linkedin.com/in/jasminehanjra) | github.com/JasmineHanjra

EDUCATION

New York University - M.S. Computer Science

Jan 2026 – Dec 2027

Courant Institute | New York, NY | Coursework: Machine Learning, Fundamental Algorithms, Programming Languages

Rutgers University - B.S. Computer Science & Data Science (Cum Laude)

Sep 2022 – Dec 2025

GPA: 3.51 | Dean's List: Five Semesters | Coursework: Deep Learning, AI, Bayesian Data Analysis, Statistical Learning

EXPERIENCE

Data Science Research Extern - Team Lead

Sep 2025 – Dec 2025

DIMACS, Rutgers University | Piscataway, NJ

- Led a 4-person research team end-to-end: preprocessed imbalanced datasets using SMOTE and Tomek Links, applied the SPLIT algorithm, and benchmarked results against Random Forest and XGBoost.
- Built Python and SQL data pipelines on the Amarel HPC Cluster to process and validate large datasets; performed exploratory data analysis and statistical modeling throughout.
- Synthesized findings into structured reports and presented trends to faculty supervisor; managed team documentation, deliverable tracking, and stakeholder communication.

Punjabi Language Instructor & Curriculum Designer

2019 – Present

Khalsa School | Easton, PA

- Designed and delivered structured curriculum for 15–20 students per session across proficiency levels; grew program from near-closure to 79 active weekly students over 6+ years.
- Maintained student progress records across cohorts and communicated outcomes to coordinators and families; adapted materials based on ongoing formative assessment.

Board Member - Logistics & Operations

Sep 2024 – May 2025

Rutgers Sikh Student Association | New Brunswick, NJ

- Planned 8+ events per semester for 200+ participants; coordinated logistics, budgeting, and vendor management, increasing attendance by 25%.
- Managed member communications, maintained shared organizational records, and ensured information was accurate and accessible across the student body.

Volunteer Judge - Speech & Debate Competitions

2024 – Present

New Jersey

- Evaluated 30+ student presentations per cycle; delivered structured written feedback under strict deadlines while maintaining consistent judging standards.

PROJECTS

musikal - DJ Track Recommendation System

Spring 2026

NYU Machine Learning, Prof. Ranganath

- Trained and evaluated four ML models on 64,754 real DJ transitions using audio features (BPM, MFCC, chroma) extracted via librosa; Gradient Boosting achieved 77% test accuracy and ~5x Recall@1 over random baseline.

AI Resume - Job Description Matcher

Python | NLP | SBERT | TF-IDF | Streamlit

- Built an end-to-end NLP pipeline benchmarking SBERT vs. TF-IDF for resume-JD matching; visualized similarity scores in an interactive Streamlit dashboard.

ASL Sign Language Detection

Python | TensorFlow | Keras | CNN

- Designed and tuned a CNN for ASL image classification, reaching ~95% validation accuracy through structured dataset validation and hyperparameter tuning.

SKILLS & CERTIFICATIONS

Programming & Data: Python, SQL, R, Java; pandas, NumPy, scikit-learn, TensorFlow, PyTorch, Streamlit, Tableau

Tools: Git, Google Workspace, Amarel HPC, Linux/Unix, Canva, Microsoft Office

Certifications: 6x UNITAR Certifications in Sustainability & Climate Justice

Languages: English, Punjabi, Hindi
